

## Series 100 - High Performance Liquid Filter Bags

The Series 100 High Performance Liquid Filter Bag is constructed of polypropylene melt blown microfibers, allowing for very fine particle capture at high efficiencies. All 3M Brand Series 100 Liquid Filter Bags are over 90% efficient at their suggested application rating. The 3M Filter offers an excellent balance of high efficiencies with very low initial pressure drops. The bag construction makes this filter an easy to use, convenient, high performance alternative to filter cartridges.

The 3M Series 100 Liquid Filter Bag can also adsorb unwanted trace oils that frequently occur in processed fluids. The high amount of surface area due to the polypropylene microfiber construction, results in oil holding capacities from 10-20 times the filter's own weight.

### APPLICATIONS

#### Prefilters or Final Filters for:

- Acids and bases
- Amines
- Carbon beds
- Completion fluids
- Deep wells
- Desalination
- DI resins
- Glycol
- Groundwater clean-up
- Machine coolants
- Makeup water
- Organic solvents
- Photo chemicals
- Plating solutions
- RO membranes
- Storm Water
- Wastewater
- Waterflood

### MATERIALS OF CONSTRUCTION

#### Filter Media:

Meltblown polypropylene microfiber filter media provides high particle removal efficiency for high quality filtration with broad chemical compatibility.

No silicone is intentionally used in materials of construction or in manufacturing.

The raw materials composing these filters are FDA compliant according to CFR Title 21.

#### Sealing Ring:

Available in "A" - Stainless Steel, and "B" - Polypropylene.

### PERFORMANCE DATA

#### Loading Capacity

Product Model Number	123	124	125	126	128
Dirt - grams at 25 gpm (5.6 cu m/hr)	125	121	146	155	351
Mineral Oil - grams at saturation	1385	2280	2050	1640	2845

**Loading:** The data above shows typical loading capacities of the different micron rated filters. Loading capacity is determined by challenging a filter with a dispersion of silica test dust in water at the recommended flow rate. Pressure drop is monitored and testing is terminated at 35 psid (2.4 bar). The loading capacity reported is the dry weight gain of the bag.

#### Particle Removal Efficiency (microns)

Product Number	123	124	125	126	128
Efficiency @95%	1.5	2.5	7.5	10.0	34.0
Efficiency @90%	1.3	1.3	6.5	8.0	29.0
Efficiency @75%	0.9	1.0	2.5	7.0	21.0
Efficiency @50%	<0.7	<1.0	<1.0	4.5	7.0

**Efficiency:** The Series 100 High Performance Filter Bags are rated using a silica test challenge in water at 25 gpm (5.7 cu m/hr). The results reported are typical initial efficiencies taken within ten minutes of the start of the test and are cumulative data.

### OPERATING CONDITIONS

Maximum Operating Temperature	180° F (82° C)
Recommended Flow (in water):	25 gpm (5.7 cu m/hr)
Suggested Maximum Flow (in water):	50 gpm (11 cu m/hr)
Suggested Maximum Differential Pressure	35 psid (2.4 bar)

## CLEAN PRESSURE DROP VERSUS FLOW RATE (PSID)

**Pressure Drop:** The Series 100 High Performance Filter Bags have low initial pressure drop ( $\Delta p$ ) in water as the chart indicates. The chart includes the pressure drop of a typical single vessel to assist you in sizing your filter system.

### DISPOSAL

Disposal of used filter bags must comply with applicable federal, state and local laws and regulations.

### WARRANTY

Seller warrants its equipment against defects in workmanship and material for a period of 12 months from date of shipment from the factory under normal use and service and otherwise when such equipment is used in accordance with instructions furnished by Seller and for purposes disclosed in writing at the time of purchase, if any. Any unauthorized alteration or modification of the equipment by Buyer will void this warranty. Seller's liability under this warranty shall be limited to the replacement or repair, F.O.B. point of manufacture, of any defective equipment or part which, having been returned to the factory, transportation charges prepaid, has been inspected and determined by the Seller to be defective. THIS

WARRANTY IS IN LIEU OF ANY OTHER WARRANTY, EITHER EXPRESSED OR IMPLIED, AS TO DESCRIPTION, QUALITY, MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE OR USE, OR ANY OTHER MATTER. Under no circumstances shall Seller be liable to Buyer or any third party for any loss of profits or other direct or indirect costs, expenses, losses or consequential damages arising out of or as a result of any defects in or failure of its products or any part or parts thereof or arising out of or as a result of parts or components incorporated in Seller's equipment but not supplied by the Seller.
